Divyanshu Singh

Full Stack Developer (React, Node.js) | UI/UX Designer | AI & NLP Enthusiast

India | +91-7617639230 | divyanshus068@gmail.com | Github | LinkedIn | Portfolio

Full Stack Developer specializing in Next.js, React, and Node.js with a track record of building production-ready, scalable platforms. Accelerated development cycles by architecting high-performance frontend pages from Figma using Tailwind CSS and Framer Motion for seamless user experiences. Optimized system reliability through the implementation of Docker, CI/CD pipelines, and Cloudflare CDN, ensuring 100% UI consistency and rapid media delivery. Streamlined content management by integrating Payload CMS and Express.js backends, providing robust, data-driven solutions for web.

TECHNICAL SKILLS

Languages : JavaScript | TypeScript | HTML | CSS | C++

Technology : Next.js | React.js | Express.js | Tailwind CSS | Framer-motion | Docker | PostgreSQL | Redux.

Services : Payload CMS | Bunny.net | Google Maps API | Cloudflare Media | Imgproxy.

EXPERIENCE

Full Stack Developer – ***Property.new*** *Dec 2025 - Mar 2026*

Technologies Used : Next.js, Reactjs, Typescript, Framer-motion, PayloadCMS, Bunny.net, Cloudflare workers

- Built production-ready frontend pages for a property platform using Next.js and Tailwind CSS, integrating Google Maps API and Payload CMS for dynamic content.
- Streamlined deployment and performance by using Docker and CI/CD pipelines, while optimizing media through Cloudflare CDN for a faster user experience.

Full Stack Developer (Intern) – ***EVO-A Pvt. limited*** *June 2025 - Nov 2025*

Technologies Used : Nextjs, Reactjs, Typescript, API handling

- Architected a scalable real-time AI chat system using React and Next.js, integrating the Gemini API to deliver context-aware, multi-role interactions with streaming responses.
- Boosted response quality by 80% through dynamic prompt engineering and build gaurdrails and optimized state management, significantly reducing latency and improving frontend reliability.

UI/UX Designer (Intern) – ***EVO-A Pvt. limited*** *April 2025 - June 2025*

Skills Used : Figma, UX Research, UI Design, Prototyping

- Built a reusable Figma design system and simple user flows to keep the app looking consistent and easy to navigate.
- Created high-quality prototypes and worked with developers to ensure the final screens were responsive and matched the original designs perfectly.

PROJECTS

IZARA - AI

Skills Used : React.js, Express.js, Tailwind CSS, API handling, Interface Design

- Built a real-time AI chat platform using React and Express, integrating GPT-4.1 for intelligent, responsive conversations.
- Developed a high-performance frontend with Tailwind CSS and Vite, featuring markdown support and secure API handling for production readiness.

WEB3 BANKING D'APP – Decentralized Finance Platform

Skills Used : React.js, Tailwind CSS, Internet Computer Protocol, Motoko, Web3 Authentication

- Built a decentralized banking app on ICP using Motoko smart contracts for token faucets, NFT minting, and real-time balance tracking.
- Developed a responsive React interface with Internet Identity authentication, allowing secure, decentralized access without traditional logins.

EDUCATION

Mahatma Jyotiba Phule Rohilkhand University *2022 - 2026*

B.Tech, Computer Science & Information Technology (CSIT)

Kendriya Vidyalaya N.E.R *2021 - 2022*

Senior Secondary (Class XII), CBSE – Science Stream

ACHIEVEMENT

- Led a 3-member development team at EVO-A to build and deliver the MVP, successfully showcased to potential investors.
- Designed scalable AI chat architecture used in the production MVP at EVO-A, integrating LLMs (GPT, Gemini) for context-aware dialogue evaluation and optimization.

COURSEWORK

- **The Complete Full-Stack Web Development Bootcamp** - *by Angela Yu (Udemy) - Completed*
- **Decoding DevOps – From Basics to Advanced Projects with AI** - *by Imran Teli (Udemy) - Ongoing*
